Summary

Software Engineer with 2 YOE specializing in Java and Spring Boot Microservices, with experience in developing REST APIs, enterprise application modernization, Java/Spring migrations, and infrastructure upgrades. Migrated legacy applications across **Java 7 to 17/21** and **Spring Boot 2.x to 3.x**, resolving API compatibility issues, updating test cases, and modernizing RHEL infrastructure. Developed a reconciliation platform processing **1M+ records** from SQL, Excel, and CSV sources.

Experience

KPMG India *Aug 2024 – Present*
Software Engineer *Gurugram, India*
Goldman Sachs (Client) – Application & Infrastructure Modernization

- Modernized **10+ Java/Spring Boot applications** by migrating **Java 7 to Java 17/21** and **Spring Boot 2.x to 3.x**, refactoring deprecated APIs, updating test cases for framework changes, and resolving application compatibility issues.
- Modernized a **JMS-based reporting service** by updating queue-processing workflows and implementing custom wrappers to maintain queue functionality while migrating the application to a higher Java version.
- Upgraded **15+ RHEL (Red Hat Enterprise Linux) hosts from RHEL 7 to RHEL 8**, migrated upgraded applications and services to the new HOSTs, reducing infrastructure costs by **$10,000**.

Reconciliation Platform

- Developed a scalable data reconciliation platform processing **1M+ records** from SQL, Excel, and CSV sources using a **pluggable parser architecture**, enabling new source formats without modifying core business logic and reducing **manual reconciliation effort by ∼80%**.

Tech: Java 17/21, Spring Boot, Spring Security, Hibernate, JPA, MySQL, ReactJS, JUnit 5, Mockito, RHEL, JMS, Maven, Gradle

Projects

Online Exam Platform | *Java 17 · Spring Boot · Spring Security · Spring Cloud · MySQL · Docker · Kubernetes*

- Built a **microservices-based exam platform** with Auth, User, Exam, and Result services behind an **API Gateway** using Spring Cloud and Eureka.
- Implemented **JWT authentication and RBAC** for STUDENT, TEACHER, and ADMIN roles; containerized services with **Docker** and deployed to **Kubernetes**.

Sarthi – College Placement Portal | *ReactJS · Node.js · Express.js · MongoDB · REST APIs*

- Built a **full-stack placement portal** connecting students and recruiters, with role-based workflows for job postings, applications, and placement management.
- Developed responsive **ReactJS interfaces** and REST APIs using **Node.js/Express.js**, with MongoDB for persistent application and placement data.

Technical Skills

Languages: Java 17/21, SQL, Python
Backend: Spring Boot, Spring Security, Spring Cloud, Spring Data JPA, Hibernate, Microservices, REST APIs, OOP, SOLID, Design Patterns, Java 8 Streams & Lambdas, Multithreading & Concurrency
Testing: JUnit 5, Mockito, Integration Testing
DevOps / Infra: Docker, Kubernetes, GitHub Actions, CI/CD, Maven, Gradle
Frontend: ReactJS, CSS
Databases: MySQL, PostgreSQL (basic), Redis (basic)
Tools: Git, GitHub, Postman, Lombok, IntelliJ IDEA, Swagger / OpenAPI
Core subjects: DSA, Operating Systems, Computer Networks, DBMS, Agile / Scrum
Problem solving: Rating : 1717, 700+ problems on LeetCode · 400+ on GeeksforGeeks

Education

ABES Engineering College, Ghaziabad *Sep 2020 – Aug 2024*
B.Tech, Computer Science and Engineering — CGPA: 8.0 / 10.0
